Best Before Date: 25/6/2024

Basfoods International Pty Ltd is updating the information for an existing recall of the above product. The products have been available for sale at Coles in VIC, QLD, NSW and SA.

Problem: The recall is due to the potential presence of a chemical (thebaine) due to unsafe poppy seeds entering the food supply.

Food safety hazard: Food products containing thebaine may cause illness if consumed. Severe poisoning soon after ingestion has occurred in some people who have consumed large amounts of poppy seeds.

What to do:

Consumers should not eat these products and should return to the place of purchase for a full refund and safe disposal. Any consumers concerned about their health should seek medical advice.
