Peach	3	Listed under carbendazim 2
Zoxamide Grapes	3	5

Notes:

1. A 'T' indicates that the limit is temporary.
2. An asterisk indicates that the limit is at or about the limit of analytical quantification.
3. Numerical MRL values may not be directly comparable as residue definitions may differ. Further, MRLs may differ from Codex limits due to varying pest and disease factors across production regions.

To assist in identifying possible impacts on imported foods, FSANZ compiled the following table of foods where MRLs were proposed for deletion or reduction and sought comment on any ramifications for imported foods.

Chemical
Food
Abamectin
Chervil*
Coriander (leaves, roots and stem)*
Ground cherries [cape gooseberries]
Herbs*
Lemon balm
Melons, except watermelon
