Re: Proposal P1019 Carbon Monoxide as a processing aid for fish.

From: Richard D. Lovell
Date: 11/2/13

To whom it may concern,

Regarding Proposal P1019 Carbon Monoxide as a processing aid for fish.

It is great to see Food Standards Australia New Zealand making clarifications to the code.

Clarifying a statement that may be ambiguous is fantastic for both the Australian Food Industry as well as the Australian Consumer.

It ensures that industry know how to deliver the best products for the end consumer.

I Remain,

Richard D. Lovell
General Manager C.P. Merchandising Co.,Ltd (Part of C.P. Foods (Thailand) Public Company)
