Administrative Assessment Report – Proposal P1038

Vitamin & Mineral Claims & Sodium Claims about Food containing Alcohol

Brief Description of Proposal: To address an inconsistency in the conditions for vitamin and mineral claims between Standards 1.2.7 and 1.3.2 and to permit nutrition content claims about salt and sodium in relation to foods (excluding beverages) containing more than 1.15% alcohol by volume.		Potentially affected Standards: 1.2.7, 1.3.2
Procedure: General	Estimated total hours: Up to 350 Reasons why: No need for an assessment of the risk to public health and safety, limited economic impact, and likely to involve an assessment of risk management measures of less than average complexity.	Estimated start work: Mid-April 2015

Decision

Proposal prepared

Date: 2 April 2015
