Re: Code Maintenance Proposal 1043

The Technical Committee of FFAANZ has reviewed this Proposal and wish to submit the following comments for consideration.

FFAANZ request of November 2015 for the following changes to Schedule 14-2 has not been accepted for this Code Maintenance.

- Revise the definition of Flavour enhancer by removing Flavour Modifier
- Revise the definition of Flavouring to the current Codex definition and incorporate Flavour modifier

There is no major change to the content, therefore, FFAANZ proposes a re-wording of the text to reflect current flavouring definitions published in Codex CAC/GL 66-2008 which the flavor industry in AU_NZ follows.

FFAANZ would like the above to be addressed in this Code Maintenance revision (P1043).

Yours Sincerely.

PETER BUSH
